

August 18th Watering Message for Lonesome Dove & Wellington Trace

Undine recognizes your need to get some water on the yards, especially around the home foundation.

IF residents can limit auto-irrigation to 5 minutes, once per day, every other day, adhering to the watering schedule (based on even or odd addresses), we would like to try that out. This was the request of a Wellington Trace customer this morning.

Residents MUST adhere to the 5 minutes only.
