

**LEAD & COPPER RULE MONITORING AND REPORTING VIOLATION
MANDATORY LANGUAGE - TIER III**

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

TEXAS WATER SUPPLY (PWS 1870131) has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we are doing (or did) to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During (56) JUNE 1 - SEPT 30, 2021, we did not monitor or test for LCR and therefore cannot be sure of the quality of your drinking water during that time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for [these contaminants], how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which the follow-up samples were [or will be] taken.

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were or will be taken
Failure to Collect one set of Lead and Copper source water samples at each Entry Point to the distribution system and submit a source water treatment recommendation to the TCEQ.	1 / 6 months	0	OCT 1, 2021 - Mar 31, 2022	July 1 - December 31, 2024 January 1 - June 30, 2025

What is being done?

In order to return to compliance,

A lab has been contracted to collect the Lead and Copper samples

We are working to correct the problem. For more information, please contact:

Water System Official: _____Undine, LLC_____

Area code + phone number: __888-201-4314__ **Date posted:** _September 20, 2024_.

Please share this information with all other people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by **TEXAS WATER SUPPLY**
Public Water System Number: **TX1870131**.

Instructions for preparing the required Public Notice:

Recopy the mandatory language above and insert the underlined information in the spaces indicated.

Public Notice delivery timelines: The initial public notice shall be issued as soon as possible, but in no case later than 12 months following the initial violation. All notifications require the attached Certificate of Delivery due 10 days from the posting date of the above notice. Public notice delivery may be provided by the Consumer Confidence Report (CCR), if 12 Month requirement is met.
